“ I worked with Fritz in the 1990s when we worked together at a company in Waterloo. He was loads of fun, He introduced me to Led Zeppelin and another Greg Loads of laughs a fun person to be around...I even went to his farm concert he put out in the country... So many memories. I was wondering about him while listening to some hair metal and thought of his Nissan... Good times.....

“ I met Fritz in the 1990's when we worked together on Labatt projects. I lost touch with him after I left the company. He was the absolute nicest person you could ever know and I considered him a good friend. We had some long days and nights on the job but he always had time to share a beer or two and talk between the shift ending at 2am and the next shift starting at 6am. I was thinking about him again recently and just wanted to share how much he is missed. I hope you are at peace old friend. Thinking of you.

“ I first met Fritz over a cold Carling 9 years ago. As it turned out he had a very unique skillset, and was able to solve any problem that he was presented with. He quickly became an integral part of our family at Demtool Inc. He was close friends with many of the people that he worked with, my brothers and myself included. Most of all he will be missed as a next door neighbor and a part of our family. Cheers Fritz, may you rest in peace.

“ Fritz had a bright, charismatic personality. He was warm, intelligent, and very easy to talk to. Although we hadn't seen each other in many years prior to his death, I will miss him deeply. However I suppose we may always find our dearly departed within our hearts.
